Sewing Machinery's Details:

<u>Sl-No</u>	<u>Type of Machine</u>	<u>Nos. of M/C</u>	<u>Country of Origin</u>
01.	Over Lock (2Needle, 4 Threads)	60 Sets	Japan (Pegasus)
02.	Flat Lock (3 Needle, 5 Thread, (Cylinder bed)	20 Sets	Japan (Pegasus)
04.	Flat Lock (3 Needle, 5 Thread, Flat bed)	20 Sets	Japan (Pegasus)
05.	Back Tape (2 Needle, 4 Thread)	05 Sets	Japan (Pegasus)
06.	Plain Machine (Auto)	80 Sets	Japan (Juki)
07.	Button Hole	02 Sets	Japan (Brother)
08.	Button Stitch (Programmable)	03 Sets	Japan (Pegasus)
09.	Cloth Cutting Machine	03 Sets	Japan (km)
10.	Rib Cutting	06 Sets	Japan (Dino Brand)
11.	Picoting	02 Sets	Japan (Kansai)
12.	P.M.D	01 Sets	Japan (Niso)
13.	Snap Button	03 Sets	China (Niso).
14.	Steam Iron with Vacuum Table	18 Sets	Korea (Niso)
15.	Needle detector machine	01 Set	China (MAX)
16.	Fusing	01 Set	Hasima (China)
Total Machinery's :		225 Sets	

Total Sewing Line : 07 Lines

Production Capacity' : BASIC ROUND NECK T-SHIRTS QTY-08,000 PCS PER DAY = 2, 08,000 PCS MONTHLY
 BASIC POLO SHIRTS QTY-05,000 PCS PER DAY = 1, 30,000 PCS MONTHLY

Production Items : BASIC T – SHIRT, POLO SHIRT, NIGHT DRESS, PAJAMA SETS, SHORTS, TANK TOP, TURTLE NECK, MOCK NECK, TROUSERS, LADIES DRESS, AND INFANT SET MEN'S AND LADIES SWEAT SHIRT AND JACKET, ALL KIND OF KNITTED ITEMS ETC.

How do us works!

DREAM WORKS Clothing International, we basically works here as a buyer representative /responsible for their order execute, by a highly trained organization. Follow all buyer instruction like Specifications, Qualities, Measurements, and Designs and ship them in timely to the destination as usual customer need. The order basically we made in our own factory, collect many orders so other thing we just made by our associates of garments.

Quality Team:-

At DREAM WORKS Clothing International all processes and procedures are permanently monitored to guarantee quality of garments.

The quality control starts from the purchase of yarn. Before bulk production starts, the yarn is first tested in our laboratory and then on sample fabrics production.

We try to monitor all knitting with our expert knitting quality, so that we can control the loop length, defaults and avoid yarn lot mixing. All Geiger rolls are being inspected before storing them in our warehouse.

During the dyeing process, all dyed batches of fabrics are tested for color variation, GSM, Color fastness, Light fastness, Perspiration and Rubbing fastness in our own lab.

PALICAN TRADE International, a sister concerns of DREAM WORKS Clothing International controls the shrinkage during the whole process from procurement of yarn to finishing of the garments. After finishing all dye lots, shrinkage of fabrics is tested by a Factor (ISO and AATCC approved).

During the garments production, quality is being checked from the cutting of fabrics to the packing of garments. Quality is being checked from the cutting of fabrics to the packing of garments. Quality inspectors are checking the cutting patterns and the bundles of cut pieces. All sewing production is constantly being monitored in line, and we have a 100% checking system at end of each line. In the packing department we have inspector to the random checking of quality.

Furthermore to the regular quality control execution in every section, we have a separate audit team, who is checking permanently whether all the procedures are being followed accurately or not, all activities is under control by DREAM WORKS Clothing International management.

END
