WATER RAMS (PUMPS)

UNIQUE OPPORTUNITY FOR OBTAINING MANUFACTURING LICENCE – PROVEN TECHNOLOGY OVER MANY YEARS

(Ref.4735R3; 5528)

Misal Technologies Pty. Ltd. is currently seeking opening of new global markets for our Billabong Hydraulic Rams (Water rams), and wishes to establish manufacturing facilities in various, strategically located global geographical areas to achieve these objectives.

In particular we wish to expand the Billabong Hydraulic Rams exposure to regions outside Australia. The Billabong Hydraulic Rams have been manufactured and used in Australia for the last 155 years by thousands of satisfied Customers.

Features:

- a) The Billabong Water Rams are the best known Rams in Australia and in fact are One of the oldest Water Rams in the world (History details available on request)
- b) The Ram does not require Electricity, Fuel or Steam to operate
- c) Simplicity of construction and operation – only 2 moving parts
- d) It is powered by the running water itself
- e) Requires very minimal or No maintenance
- f) Heavy duty cast Iron Base and Dome
- g) No plastic parts used
- h) Renowned for its high longevity (60+ years) and operation reliability
- i) There are instances where 2nd or 3rd generation of farmers in Australia are still operating the same Rams
- j) Capable of operating with Head delivery of up to 200 feet

The company is seeking Licensees for predetermined geographical areas.

Offers for IP outright acquisition will also be considered.
